

Matura topics

Maturitetne teme so splošne. Od kandidata se pričakuje, da zna o vsaki temi kaj povedati, predstaviti svoje mnenje, predstaviti problematiko, razmišljati o njej, nikakor pa to ne pomeni učenja besedil na pamet! Pogovor pomaga usmerjati izpraševalec, zato niste prepuščeni sami sebi. Med pripravo na izpit si lahko na listič zapišete oporne točke, vendar imejte v mislih dejstvo, da ste na ustnem izpitu in da ne morete napisati zgodbice in je potem izpraševalcu brati.

Na izpit pridite čimbolj sproščeni in zgovorni. Ne razmišljajte o slovnici in napakah, ki jih morebiti delate, ampak poskrbite, da boste čimveč govorili sami in poskušajte uporabljati čimbolj raznoliko besedišče.
